

CSE Workload Survey - FA 21 - WN 22

CSE Students, including CS-Eng, CS-LSA, DS-Eng, and CS Minors, were asked to evaluate the workload of CSE courses. The results of this survey are shown below. For each course, we have listed the number of responses and the level of workload as reported by those who responded to the survey. Each response has a value assigned, with lower values being lighter and higher values being heavier. The average of these values determines the Average Workload Rating column. The closer the average is to 4, the heavier the workload is reported to be. Please keep in mind that courses are subject to curriculum changes every semester and student responses are subjective.
